

TECHNICAL SPECIFICATION

KRUSHER

It is a calendered PVC film POLYMERIC with special texture, available in the colors: white, black, graphite, red, silver, military green and blue metallic. Paper liner coated siliconized and repositionable acrylic adhesive.

Indication: Designed for protection and customization of vehicles, can be used for clipping. Good stability on smooth surfaces and curves, resistant to light impacts.

Physical Property: Front: PVC compounder 100 micron (0,10µm).
Liner: Coated siliconized paper 150 g/m².
Adhesive: acrylic repositinable 17 g/m² (\pm 2g/m²).

Supply and

Durability:

- Material packed in box and cardboard reels with a width of 1.38m.
- Expected durability: seven years (except color graphite and blue metallic – one year). In horizontal this durability is reduced to 30%.

Important: durability can be extended or decreased as a result of application techniques and conservation.

Storage: Store at temperatures between 20°C and 30°C, relative humidity between 40% and 50%.
Validity: two years from the date manufacture if packed in original packaging and in an appropriate place.

Recomendations:

- Apply in smooth superfice; cleaned with isopropyl alcohol avoiding contact with impurities, oils or any other chemical.
- Do not use in places with ripples, rough surfaces and/or porous.
- Excess solvent usage reduces the durability of the product of time.
- Install immediately after cutting.
- Once applied to avoid aggressive products and constant friction.

- The above data are based on laboratory tests that Alltak believes to be reliable and are provided for informational purposes only and do not constitute any form of guarantee.
 - Due to diversity of potential influencing factors during application and use of the adhesive film for special applications, we recommend customers to conduct their own testing.
- Note: Our products are not part of the production chain of auto parts and building materials.

TECHNICAL SPECIFICATION

KRUSHER METALLIC

It is a calendered PVC film POLYMERIC with special texture, available in two colors: gold and rose. Paper liner coated siliconized and repositionable acrylic adhesive.

- Indication:** Designed for protection and customization of vehicles, can be used for clipping. Good stability on smooth surfaces and curves, resistant to light impacts.
- Physical Property:** Front: PVC compounder 250µm (microns).
Liner: Coated siliconized paper 150 g/m².
Adhesive: acrylic repositinable 17 g/m² (\pm 2g/m²).
- Supply and Durability:**
- Material packed in box and cardboard reels with a width of 1.38m.
 - Expected durability: 1 year. In horizontal this durability is reduced to 30%.
Important: durability can be extended or decreased as a result of application techniques and conservation.
- Storage:** Store at temperatures between 20°C and 30°C, relative humidity between 40% and 50%.
Validity: two years from the date manufacture if packed in original packaging and in an appropriate place.
- Recomendations:**
- Apply in smooth superfice; cleaned with isopropyl alcohol avoiding contact with impurities, oils or any other chemical.
 - Do not use in places with ripples, rough surfaces and/or porous.
 - Excess solvent usage reduces the durability of the product of time.
 - Install immediately after cutting.
 - Once applied to avoid aggressive products and constant friction.
- The above data are based on laboratory tests that Alltak believes to the reliable and are provided for informational purposes only and do not constitute any form of guarantee.
- Due to diversity of potential influencing factors during application and use of the adhesive film for special applications, we recommend customers to conduct their own testing.
