

TECHNICAL SPECIFICATION

MOLD´N HOLD

It is a PVC compounder strip with textured black color, coated paper liner and repositionable adhesive.

Indication: Develop as security tape and finish enveloped vehicle adedges; in addition to seal the adedges acts as a mask to hide the color of the car, creating a perfect and safe finish. It's texture simulates the plastic finish of vehicle factories.

Physical Property: Front: PVC compounder 80µm (microns).
Liner: Coated siliconized paper 150g/m².
Adhesive: acrylic repositionable 40g/m² (\pm 2g/m²).

Supply and Material tape packed in plastic box with 23m long and 1cm wide.

Durability: Expected durability: five years.
Important: the durability can be extended or decreased as a result of application techniques and conservation.

Storage: Store at temperatures between 20°C and 30°C, relative humidity between 40% and 50%.
Validity: two years starting from manufacturing date, provided it is in original packaging and appropriate location.

Recomendations:

- Apply in smooth; flat surface previously cleaned using isopropyl alcohol avoiding contact with impurities, oils or any other chemical.
- Do not use in places with ripples, rough surfaces and / or porous
- Excess solvent usage reduces the durability of the product of time.
- Install immediately after cutting.
- Once applied to avoid aggressive products and constant friction.

- The above data are based on laboratory tests that Alltak believes to be reliable and are provided for informational purposes only and do not constitute any form of guarantee.
- Due to diversity of potential influencing factors during application and use of the adhesive film for special applications, we recommend customers to conduct their own testing.
Note: our products are not part of the production chain of auto parts and building materials
